

| | |
|--------------|---|
| Current role | Frontend Development Intern at Tobams Group and Frontend Development Intern at Kuwiya |
| Experience | Digital Media, DevOps, Marketplace, Food |
| Technologies | React, CSS, TypeScript, Redux, HTML, JavaScript, Next.js, Postman, AWS, Python, JSON |

My favourite technology is...
TypeScript because of language features, reference validation, project scalability, collaboration within and between teams, developer experience, and code maintainability.

My Portfolio Website @ icyeazy.github.io

This is my portfolio website which contains a little bit about me, my skills, learning exercises and my contact..

More about me

My favourite technology is...

TypeScript because of language features, reference validation, project scalability, collaboration within and between teams, developer experience, and code maintainability.

I want to work for a company that...

Would give me the privilege to better my Frontend and React Native skills.

In 3–5 years I want to be...

An expert in Frontend Development and React Native and also be able to pass knowledge to others who need it.

Interests

Sports (table tennis and volleyball), surfing the internet.

I like to work with people who...

Gives other people a chance to have freedom of expression and ideas.

I'm making a career change because...

I want to solve more problems in the world technologically.

Right now I'm learning...

More about React, TypeScript, Redux, and React Native.

Languages

English, Yoruba
