### My Portfolio Website @ icyeazy.github.io

This is my portfolio website that tells about my frontend and react native experiences.

Mar 2016 - Jan 2022 (5y 10m)

## More about me

### My favourite technology is...

TypeScript because of language features, reference validation, project scalability, collaboration within and between teams, developer experience, and code maintainability.

### I want to work for a company that...

Would give me the privilege to better my Frontend and React Native skills.

### In 3-5 years I want to be...

A very successful person at what I do.

#### Interests

Sports (table tennis and volleyball), surfing the internet.

### I like to work with people who...

Gives other people a chance to have freedom of expression and ideas.

### I'm making a career change because...

I want to solve more problems in the world technologically.

### Right now I'm learning...

More about React Native, Redux and the use of Vitest and Jest.

### Languages

English, Yoruba
